North Dakota Department of Public Instruction (NDDPI) has partnered with Tenet Leadership, LLC., to provide North Dakota school boards and school leaders with invaluable training to improve student outcomes. Using a research-based and proven system, the N.D. Legendary School Board Leadership Institute is based on **five critical pillars to transform school board performance**:

1. SCHOOL BOARD VISION AND GOALS

(adoption and monitoring of public student outcome goals and goal progress measures);

2. SCHOOL BOARD ACCOUNTABILITY FOR GOAL MONITORING

(school boards will learn to focus 50% of their time on student outcome goals and goal monitoring);

3. SCHOOL BOARD SYSTEMS AND PROCESSES

(school boards will learn to review and streamline their policies, procedures, and theory of action);

4. SCHOOL BOARD ADVOCACY AND ENGAGEMENT

(school boards will learn to engage the community in student outcome goal setting and monitoring); and

5. SCHOOL BOARD SYNERGY AND TEAMWORK

(all school board members will learn to engage in team building with measurable expectations).

Be Legendary School Board Leadership Certification

School Board members are important leaders in their school systems and hold the power to dramatically improve student achievement. Although not required, the training is recommended for two or three separate school boards to participate in to learn from and with each other. This approach also provides a larger discount for your school district.
